LSRO's scientific foundation is strengthened by its relationships with the LSRO Member Societies.

Member Societies nominate directors to the LSRO Board, provide connections to their membership, and identify areas of interest for LSRO participation.

LSRO Member Societies

American Society for Nutritional Sciences
The American Physiological Society
The Protein Society
American Society for Pharmacology and Experimental Therapeutics
American Society for Investigative Pathology
The American Society for Bone and Mineral Research
The American Society for Clinical Nutrition
American College of Nutrition
International Society of Regulatory Toxicology and Pharmacology
